A Fragrant Breath and Pearly Teeth

Are easily obtained by cleansing your teeth daily with that justly popular dentifrice, SOZODONT. Composed of rare antiseptic herbs, it imparts whiteness to the teeth, a delicious aroma to the breath, and preserves intact, from youth to old age, the teeth. Acidity of the stomach will destroy the strongest teeth unless its effects are counteracted with SOZODONT, and this pure tooth-wash protects the dental surfaces by removing every impurity that adheres to them. Ask your druggist for SOZODONT.

GOOD SENSE FROM THE "BULLETIN."

Nevada is one of the most reliable Republican States in the Union. Its Electoral vote since its admission has always been given to the Republican candidates. On one or two occasions it sent a Democrat to the Lower House of Congress. But its Senators have always been Republican. Neither its electoral vote nor the Senator who is to be elected this fall can be spared by the Republican party. Three votes in a contest which may be very close are not to be overlooked. The Republicans can lose New York and New Jersey, and elect their President. But they will want every other Northern electoral vote to do so.

The Senate is of scarcely less importance than the Presidential ticket. If the Republicans could recover their ascendency there, the political outlook would be more reassuring. The Senate at this moment is Democratic by ten majority. The progress in this direction has been quite satisfactory. The Republicans have gained one seat in Ohio. The chances are that they will gain one in Pennsylvania. But they must hold the seats they have now. The next Senator from California will be likely to be a Republican, no matter what happens. There are twenty-four hold-over Republican Senators. In case of emergency one or two more Senators elected on other tickets are ready to enter the Republican caucus. At the outside the Republicans have only to elect thirty-seven Assemblymen out of eighty to secure control of the joint Convention. This they are pretty certain to do, no matter how things may fall out.

But there is danger of the loss of the Senatorship from Nevada. This results from the fact that Mr. Sharon persists in running for office. He has been most of the time in this city. No very strong efforts have been made to induce him to resign, because the Governor of Nevada was a Democrat during the early part of his term, and would, in the event of his resignation, have been sure to fill the vacancy with a member of his own party. If Nevada is to be judged by any other community in the United States, a Senator who is a non-resident, and has so uniformly neglected the duties of his office, cannot be very popular there. It is the general opinion that his candidacy for re-election will greatly militate against the Republicans. It is believed it will produce lukewarmness at a time when it is essential that every man should be in line. There are many strong Republicans in Nevada who are deserving of the place. Clearly, Mr. Sharon ought to declare unequivocally, that under no circumstances will he be a candidate for re-election to the Senate, and at the same time he owes his party his powerful aid towards the effort to secure the election of some Republican resident of Nevada as his successor.

I Wish Everybody to Know.

Rev. George H. Thayer, an old citizen in this vicinity, known to every one as a most influential citizen, and Christian Minister of the M. E. Church, just this moment stepped in our store to say, "I wish everybody to know hat I consider that both myself and wife owe our lives to Shiloh's Consumption Cure." It is having a tremendous sale over our counters and is giving perfect satisfaction in all cases of Lung Diseases, such as nothing else has done. Bourbon, Ind., May 15, 1878. Drs. Matchett & France. Sold by Osburn & Shoemaker, Druggists, Reno, Nevada.

Fortune Telling.

Madam Zola, a fortune teller whose reputation has become almost as extensive as her illustrious teacher, Raschell, is now in Reno, where she will spend a few weeks for the purpose of revealing the mystery of the future. She divines events to come off in stocks, gambling and love affairs, and reads the trend of futurity, either by cards or the lines of the hand. Her palmestry is beyond compare. Fee, $1. JOTTINGS.

— The population of Prosser Creek is rapidly increasing.

— By request, Mrs. Alt will give a dance in Kimball's hall this evening.

— Wipe off your chin with one of those fine silk handkerchiefs sold at the White House.

—The exhibition of dissolving views in the theatre this evening will be very interesting. See advertisement.

—M. Nathan's goods are attracting a great deal of attention. Those who drop in there almost invariably find exactly the thing they want.

—Ladies from a distance express delight and surprise to find such a fine stock of goods as Sol. Levy has provided for them to make selections from.

— There will be no Athletic exhibition this evening in Kimball's hall. The Virginia turners are unable to attend. About Nov. 1st the Athletic Club propose to give a fine entertainment.

— The I X L is loading up with carpets, new trunks, valises, dry goods, fancy goods and all manner of gentlemen's furnishing goods. The jam in the street from drays unloading boxes and packages continues, and where everything is going to be put is a mystery to outsiders. Such a stream of customers continues to pour in, however, that the blockade cannot last long.

Boy Drowned in the Truckee.

Johnny Battenfield, a five-year-old boy, disappeared from Truckee Sept. 4, and was supposed to have fallen into the river. The *Republican* says: News reached Truckee last Monday at half past five P. M., that a boy was seen floating in the river near Boca. One of the clerks in Burkhalter's store telephoned to the Clinton saw mills, two miles from where he was seen, "that a boy was seen floating in the river at Boca, and to keep a sharp lookout for him." Sure enough, not long after the news was sent, Johnny was hauled out of the waters that had hid him from view for twenty-three days. His remains came up on the overland Monday night, and yesterday morning were forwarded to Rocklin for interment.

George Tromlitz in the Toils.

The Elko *Independent* has the following relative to the "world-renowned chiropodist," who bilked all who trusted him here a year ago: "Tromlitz, the fascinating 'corn doctor,' who worked this place to advantage some months ago, winding up his exploits by carrying off the buxom chambermaid of the Depot Hotel, is at last under lock and key. After leaving Elko he figured conspicuously in the local history of Ogden and Salt Lake City until those places became too warm for him. Deserting the chambermaid at Green river, Tromlitz hurried to the east, but when he reached Chicago he was nabbed by the policemen, who were familiar with his record, and to-day the smooth and gullible man of confidence repines in the jail of the great city by the lakes."

Lyon County Stock Census.

Lyon county has 636 head of horses, 176 mules, 307 cows, 960 beef cattle, 13 bulls, 1,400 sheep and lambs, 303 hogs, 490 chickens, 15 ducks and 30 hives of bees. The amount of land inclosed in the county is 10,000 acres, of which 1,670 acres are cultivated.

THE PAVILION.

The Exhibits in the Agricultural Department—Grain and Milling—High Prices and a Good Market for Wheat and Barley—Fall Sowing—Minor Objects of Interest.

The first exhibit seen on entering the Pavilion is, by a happy coincidence, the most important in the building. It is a stack of bags containing samples of the various products of the Lake Mills of Reno, the largest manufacturing establishment in Nevada, doing a business of $30,000 per month. The exhibit comprises flour, three grades; corn meal, oat meal, graham meal, rye flour and cracked wheat, each in three sizes; also hominy and pearl barley, in 10 and 25 pound sacks. These samples are all of excellent quality, and Mr. Beck gives away a small sack of the wheat flour to all who apply. The staple products of the Mills are wheat flour and ground barley; the other samples are exhibited to show the varied capabilities of the establishment.

WHEAT AND BARLEY

samples are shown in sacks with the Lake Mills display. There are some magnificent heads of Champlain (Pringle's new hybrid) wheat shown, eight inches long, exceeding by an inch and a half the length shown in a circular advertising the variety. George Alt paid $1 a pound for some of the seed, and from two acres on his ranch at Glendale he raised 162 bushels, an enormous yield. There are also exhibited fine samples of White Club wheat, raised by Henry Whistler and Peter Dalton, and D. Hank of Honey Lake shows some fine Great Eastern wheat. A sample of Michigan White barley grown by G. H. Douglas on Lake's ranch is pronounced superior for brewing purposes to any raised in California. The same exhibitor shows an excellent sample of Norway oats.

GRAIN GROWING

in Washoe county is becoming an important branch of agriculture. The acreage in grain this year is three times as great as it was last year. As yet, however, the local product is a mere drop in the bucket of the local demand. The Lake Mills grind each month about 600 tons of barley, 100 tons of wheat and 20 tons of corn. Of every 600 tons of barley ground the Mills are obliged to import 590 from California, and the local product of wheat supplies the Mills only three months in the year. It must always be profitable for farmers in this section, Mr. Beck says, to grow sufficient grain to satisfy the local demand. The freight from Sacramento to Reno is $1 06 per 100 pounds. This cost of freight is always in favor of the local grower. Barley, which is now sold in Sacramento at about 80 cents, is worth $1 90 here. The Mills here are paying $2 20 for wheat, which is quoted at about $1 25 in California. There is no reason why Washoe county should not raise sufficient grain to supply the whole of Nevada.

GOOD LAND FOR GRAIN

is found all through this State. The bench lands, the first elevations above the flats are usually the best for wheat. In this valley fine crops of grain have been raised at Glendale, right on the flat. Mr. Beck puts the average yield of wheat in Glendale at from 40 to 80 bushels; of barley over 100 bushels. This year the average product of the grain area of the State, may be set down as between 25 and 30 bushels of wheat to the acre, and of barley, from 40 to 60. Barley is the only grain fed by teamsters. They consider it superior to oats as feed for horses doing hard work.

WHEN TO SOW.

Mr Beck desires to have the advantages of fall sowing urged upon the attention of the farmers. He says that it will be found a much better plan than to sow in the spring. The grain should be sown early in the fall, say Oct. 1, in order to allow it to get a good start before the coming of the frost. Fall sowing has been tried by Geo. W. Andrews, on Indian flat. He was much pleased with the results. He made a comparative test of the two systems of sowing, and found the advantage to be much in favor of the grain sowed in the fall. He believes that fall sowed grain requires very little irrigation in the summer, and in some localities would need none.

THE OTHER AGRICULTURAL EXHIBITS

are not numerous. Three bales of hay represent the great staple crop of Washoe valley. Four cheese and a few samples of butter represent the dairy interest. One sack of onions, and two of potatoes stand for the root crop. There are the usual large pumpkins and squashes, watermelons and musk melons. Some fine tomatoes were exhibited.

The reporter's attention was especially directed to some green corn of the Mammoth Evergreen variety, stripped for inspection. It is said to enjoy an immunity from the attacks of worms, and one ear is big enough to satisfy the appetite of any ordinary man.

Mr. Wright, the venerable American Agriculturist, whose wagon loaded with watermelons is a familiar object in the streets of Reno, exhibits some splendid green tobacco, grown on his ranch. His father used to grow his own tobacco in York State, and it occurred to Mr. Wright this spring to plant some tobacco seed, and see how it would take to Nevada soil. The plants grew and flourished, and the specimens on exhibition are pronounced excellent. Mr. Wright says that tobacco will grow here just as well as in any place he knows of.

Near the tobacco plants, some tall corn stalks, ten feet high, lean their heads against the wall. It is of the Peruvian variety, and was raised by Guy Manning.

There is little fruit on exhibition, but some of it is superior. The crop has never been better than it is this year There are apples, mulberries, plums, pears, crab apples, etc. If the names of the varieties exhibited were affixed, the display would be of more use. Preserves of every description are shown, and make a tempting exhibit.

Some eggs laid by a "Cochin Poland" fowl imported from Wales, and owned by Mrs. C. H. Frick, are remarkable for their large size. One of them measures 6¼ inches in its smallest circumference.

The supposition is that the two packages that are tied up in napkins in the showcase are loaves of bread. Beside them is a plate of jelly cake, uncovered, inviting observation, and looking very toothsome.

Reluctantly turning away from the jelly cake, the sole exhibit of its kind, the visitor will linger for a while before the display of honey in the comb, shown by J. C. Sessions, and after looking at the specimens of comb foundation and other bee-keeper's supplies, will have about "done" the exhibits at present displayed in the Agricultural department, and be hungry enough for a dinner at the Arcade or the Metripolitan.

A GOOD LISTENER.

D. Banks McKenzie Discourses to a Reno Girl on the Beauties of Washoe Valley and Steamboat.

The *Enterprise* says: They tell a good joke on Dr. Banks McKenzie, the well known temperance lecturer, in connection with the visit to this State of President Hayes and party. Dr. McKenzie left Reno on the train with the Presidential party, and finding himself seated near a young lady, concluded that she was one of the party, and probably Miss Sherman. In passing up through Truckee meadows, Steamboat valley and Washoe valley the Doctor pointed out and discoursed upon all objects of interest, as Steamboat springs, the wood-flumes and the like. In Washoe valley the Bowers mansion was pointed out and a detailed history of the former owners given. All this was attentively listened to and finally, as the train was running along up through Eagle valley, the Doctor asked the young lady some question about the East. "The East," said the young lady—" I am not from the East. I reside in Reno." The young lady was Miss Gerty Hatch of Reno, who has lived in that town nearly all her life, and who has been perfectly familiar from childhood with all the scenes and subjects so eloquently enlarged upon by the Doctor. Upon learning that he had been carrying bushels and bushels—whole shiploads—of coals to Newcastle, the Doctor's jaw fell, and during the remainder of the trip he sadly and silently retraced his way along the thread of his late discourse, unpleasantly conscious that in some places he had thrown in a little more romance than was likely to be appreciated in the home market.

Items from the Truckee "Republican."

Laborers are in demand in Truckee.

Mr. Rabel has so far recovered that he is able to set up at short intervals.

Frank Wilson, accompanied by an Indian, killed two deer last Sunday.

It is reported that C. F. McGlashan will not locate in Truckee—having permanently settled at Santa Cruz.

R. P. Ferguson, of the Pacific Shingle Co., has concluded a contract with the Eureka & California Lumber Co. of Eureka, to supply them with a million and a half feet of square timber for the Eureka mines, to be supplied next season.

Quail are very numerous in this vicinity. Saturday afternoon one of our nimrods killed thirteen inside of an hour. Grouse, however, are to be found high up in the mountains, and are said to be very wild.

A curious feature has been noticed about white fish, in the vicinity of Donner Lake. They are frequently caught within half a mile of the lake in Donner creek, the outlet of the lake, but none have been either caught or seen in the lake.

BY TELEGRAPH.

Senator Jones Heard From.

SAN FRANCISCO, Sep. 29.

The *Bulletin* this afternoon will publish an interview with Senator John P. Jones, of Nevada, relative to a letter which the N. Y. *World's* Washington correspondent alleges to have been received by an intimate friend of Jones of Nevada, in which he announces his determination to disconnect himself from any party in conduct of the campaign, and to support Fair for Senator, as against Sharon. Senator Jones emphatically denies having written such a letter and says further he has not for many weeks written any letter containing reference to political affairs. While confessing preference for Grant as nominee of the party, yet when the Chicago Convention settled on Garfield the latter became his choice, and he regards him as being eminently fitted for the position. He holds that in no election, since the Democratic party resolved itself into the rebel army in 1861, has the success of the Republican Party been of more importance to the welfare of the country. As to the Senatorial contest, the stupidity of the utterances in the alleged letter, is evident from the fact that it is only within a few days that it has been known that Fair would be nominated as candidate, and it is not yet certain whether or not Sharon will be a candidate. He expresses confidence that Nevada will cast her electoral vote for the Republican candidate.

A Fatal Mistake.

STOCKTON, Sept. 28.—Soon after 6 o'clock Sunday evening James Mullen was shot and instantly killed by Dennis Mullen at a cabin owned by the latter, on the line of the railroad, one mile north of Acampa, in this county. The pricipals were intimate friends, and not relatives. Both had been drinking to excess. The deceased man left the cabin about half an hour before the killing, leaving the prisoner asleep on his cot. The latter was awakened by the entrance of his friend, who exclaimed, "Now, you old rascal, I have come to choke you to death." Dennis replied, "I guess not," and reaching for his shot gun, which hung over his head, he fired at the intruder, killing him instantly. Mullen had been troubled considerably with tramps, and was under the impression that one was in the cabin after his money, he at times having $3,000 or $4,000 with him.

Weaver Warns the Greenbackers Against the Democrats.

INDIANAPOLIS, Sept. 27.—Following is a circular letter addressed to the Greenbackers of the Union by their candidate for the Presidency:

INDIANAPOLIS, (Ind.), Sept 27, '80.

To Greenback Labor Men throughout the United States:—I urgently request that you have struck off by the thousand, for circulation in each county, full extracts from Mr. Bayard's New York speech, in which he says the Democratic candidates for President and Vice President, and the Democratic party, are in favor of his bill to destroy the greenbacks—that they will carry out that policy. Publish the Bayard resolution, with full extracts from his speech, so that the people may know just what it is that the Democratic party and its candidates are pledged to carry out.

Opening of the Stockton Fair.

STOCKTON, Sept. 28.

The Fair has brought a horde of bad characters to the city. Early this morning a burglar entered Seiver's Market and fired a shot at a young man who slept in the store and was awakened by the noise. Last evening a lady had her pocket picked in a dry goods store.

The Fair opened under very favorable auspices. The exhibition promises to surpass any held for years.

JACKSBORO, (Tex.), Sept. 27.—This morning immense swarms of grasshoppers appeared coming from the north, at times obscuring the sun. The farms near here were completely devastated, even the cotton stalks being devoured.

SANTA BARBARA, Sept. 28.—Clarence Gray, who shot Theodore Glancey, is committed to jail, on the charge of murder, without bail.

Big Mine Sold.

O. P. Keyes received a telegram from New York this morning that the eastern parties had accepted his proposition on the Alexander mine at Grantsville. The price is six or seven millions of dollars. The parties who buy are an English syndicate. Keyes says he thinks it is the biggest mine in the world.

THE TOURNAMENT TO-DAY.

The Trustees had decided to hold the Ladies' Tournament on Friday, as announced in last evening's GAZETTE. The time was subsequently fixed for this morning at 11 o'clock. Six ldies competed. The second race, between Jennie B and Euchre, mile and a half dash, was won by Jennie B in 2:43½.

REPUBLICAN NATIONAL PLATFORM.

lowing is the text of the resolutions adopted by the Republican National Convention on Saturday, June 5, 1880:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent bonds sold at 88, to that where four per cent bonds are eagerly sought at a premium. Under its administration railways have increased from 21,000 miles in 1860 to more than 82,000 miles in 1879. Our foreign trade has increased from $700,000,000 to $1,-150,000,000 in the same time, and our exports, which were $20,000,000 less than our imports in 1860, were $264,000,000 more than our imports in 1870. Without resorting to loans it has, since the war closed, defrayed the ordinary expenses of government, besides the accruing interest on the public debt, and disbursed annually more than $30,000,000 for soldiers' pensions. It has paid $880,000,000 of the public debt, and by refunding the balance at lower rates, has reduced the annual interest charge from nearly $151,000,000 to less than $89,000,000. All the industries of the country have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the Republican party asks for the continued confidence and support of the people, and this convention submits for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

ENUMERATION OF PRINCIPLES.

First. We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved. That the peace regained should be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperiled. That the pensions promised should be paid. That the debt so much reduced should be extinguished by the full payment of every dollar thereof. That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged.

Second. The Constitution of the United States is the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by national and not by State tribunals.

Third. The work of popular education is one left to the care of the several States, but it is the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the genius of any one State, but by the average genius of all.

NON-SECTARIAN SCHOOLS.

Fourth. The constitution wisely forbids Congress to make any laws respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism while each State is exposed to its particular domination. We therefore recommend that the constitution be so amended as to lay some prohibition upon the Legislature of each State, and to forbid the appropriation of public funds to the support of sectarian schools.

Fifth. We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be so discriminate as to favor American labor. That no further grant of the public domain should be made to any railroad or other corporation. That slavery having perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American birth must be secured to citizens of American adoption. That it is the duty of Congress to develop and improve our water-courses and harbors, but we insist that further subsidies to private persons or corporations must cease. That the obligations to the men who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final victory. Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people.

THE CHINESE PLANK

Sixth. Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and the treaty-making powers, that the Republican party, regarding the unrestricted immigration of the Chinese a matter of grave concernment and under the exercise of both these powers would limit and restrict that immigration by the enactment of such just, humane and reasonable laws and treaties as will produce that result.

Seventh. That the purity and patriotism which characterized the earlier career of Rutherford B. Hayes in peace and war, and which guided the thought of his immediate predecessor to him for a Presidential candidate, have continued to inspire him in his career as chief executive, and that history will accord to his administration the honors which are due to an efficient, just and courageous fulfillment of the public business, and will honor his interposition between the people and proposed partisan laws.

INIQUITIES OF THE DEMOCRACY.

Eighth. We charge upon the Democratic party the habitual sacrifice of justice and patriotism to a supreme and insatiable lust for office and patronage; that to obtain possession of the national and state governments and of the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrage; have devised fraudulent certificates and returns; have labored to unseat lawfully elected members of Congress, to secure at all hazards the vote of the majority of States in the House of Representatives; have endeavored to occupy by force and fraud places of trust given to others by the people of Maine, and rescued by the courage and action of Maine's patriotic sons; have by methods vicious in principal and tyrannical in practice, attached partisan legislation to appropriation bills; have crushed the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the war and to overcome its inestimable good results—freedom and individual equality. We affirm it to be the duty and purpose of the Republican party to use all the legitimate means of this Union to secure the perfect harmony which may be practicable, and we submit to the practical, sensible people of the United State to say whether it would not be dangerous to the best interests of our country at this time to surrender the administration of the national government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.

REPUBLICAN STATE PLATFORM.

RESOLVED, That the platform of principles adopted by the National Republican Convention, at Chicago June last, deserves and receives the approval and hearty indorsement of all the Republicans of Nevada.

RESOLVED, That the hordes of Chinese that are coming in upon our shores to eat out our substance are destroying our country, impoverishing our mines, mining and laborers, debauching our youth, and making both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we pledge the entire strength of the Republican party.

In the language of our great leader, we regard the immigration of Asiatics to the United States as little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese Government fail to secure by the first of next January such modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the treaty then be promptly annulled, and such laws enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well-being of the Republic.

RESOLVED, That we most heartily indorse the general financial policy of the Republican party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our national credit to a height never before known, and to the restoration of a national prosperity. But we also demand the complete restoration of silver coin to its former position by the side of gold; and for the purpose of attaining that end we hold it to be the duty of the General Government, through the authorization of Congress, to coin into standard dollars or other legal tender currency, at the cost of coinage, and for the benefit of the producer, the entire silver product of the country, relieving the mining interests from the loss attending the shipment to and sale of silver bullion in foreign markets.

As mining for the precious metals is the ng industry of Nevada, we are inflexibly opposed to the bill reported by the Committee on Mines and Mining, and now before the House of Representatives, prohibiting the following of fissure veins or deposits beyond the vertical lines of surface boundaries; and we urge our Representatives in both Houses of Congress to continue their efforts for its defeat. Such a restriction would work disaster to the labors of the prospector, and seriously retard the development of the mineral riches of the West, and we cordially indorse the action of our Representative, the Hon. R. M. Daggett, in this behalf.

RESOLVED, That the Republican party aims it to be the right and duty of State and Territorial Legislatures to regulate and restrict the charges of railroads exclusively within their respective boundaries, and that it is no less the constitutional right than the positive duty of Congress to regulate the tariffs and restrict the charges of inter-State railroads.

RESOLVED, That while we congratulate the country on the successful resumption of specie payments, and the splendid financial condition of the Republic, we are in favor of restricting the issuance of National and State legal tender notes, to denominations of not less than five dollars, thus creating an increased home demand, as a circulating medium, for the precious metals which our mines are annually yielding.

RESOLVED, That Gen. James A. Garfield and Chester A. Arthur, by their services to the country, by their devotion to principle, and by their unspotted reputation as men and as citizens, are deserving of the united and earnest support of all the loyal people of the United States for President and Vice President thereof. We rejoice in their nomination, and we pledge to them the electoral vote of Nevada at the ensuing election, by an overwhelming majority.

REPUBLICAN COUNTY PLATFORM.

RESOLVED, That we most heartily endorse the principles as enunciated by the National and State Republican Platforms.

RESOLVED, That we recognize in James A. Garfield and Chester A. Arthur, the Republican nominees for President and Vice President, pre-eminent worth and ability. Their past record, patriotism and services give assurance of their fitness for the positions to which they have been nominated, and that they should and will have our earnest and united support.

RESOLVED, That in R. M. Daggett the Republican party has given to the people of Nevada an able and industrious Representative, and in Wm. H. Beatty an honest and fearless Judge, and we will endeavor by united work to insure their re-election.

RESOLVED, That the Republican party ever has encouraged and supported free and intelligent labor, and ever will endeavor to restrain the unrestricted immigration of Chinese to our shores, and to promote the happiness and well-being of the laboring classes of this nation, and fully recognizes the self-evident fact that our national growth, grandeur and prosperity are the results of free labor.

RESOLVED, That the principles of our government can only be upheld and perpetuated by a full, free and fair ballot, and that to secure and protect the right of suffrage to every citizen it is our duty to discountenance and condemn any violation or attempt at interference with this sacred right, and that every lawful measure should be invoked to secure this right to every citizen.

RESOLVED, That in view of the fact that the Republican party has ever been true to its trusts in the past, our national prosperity and welfare demand a continuation of its rule.

RESOLVED, That it is the first duty of every Republican to give his support only to men whom we are assured will guard and protect the interests of the people, and advance and promote the educational interests, and manufacturing, agricultural, mining and other industrial pursuits of our people.

RESOLVED, That the Republicans of Washoe County favor a change in the office of United States Senator, and that our Representatives and Senators be instructed to vote as a unit on all Senatorial questions, and endeavor to secure the election of a man whose home is in Nevada.

RESOLVED, That we pledge the Republican party to use every effort to reduce the expenses of our State government, and that we are opposed to the repeal of the County Salary Bill.

RESOLVED, That we are opposed to the so-called Drummer's License Law, and would recommend its repeal or the reduction of the license to five dollars per month.

RESOLVED, That the Republican party of Washoe County extends a cordial invitation to capitalists to come here and build quartz mills, open mines, run irrigating ditches and lay railroads, and we promise equal and exact justice and fair dealings to all.

DEMOCRATIC COUNTY PLATFORM.

The Democracy of Washoe county in convention assembled declare as follows:

That we, the Democracy of Washoe county, endorse and reaffirm the principles enunciated in the platform of the National Convention at Cincinnati, in June last, and also our State Convention at Winnemucca, and heartily approve the lines of government there marked out.

Resolved. That we recognize in our candidate for Congress, the Hon. W. Cassidy, an able statesman and tried gentleman, one who, as Senator in our councils has always fearlessly maintained our principles and labored for the best interests of our State, and we pledge that if elected, among his first legislative acts shall be to introduce such a measure as will make completely operative and effective the plank of the National Platform which demands the prohibition of Chinese immigration, and that we invite to the support of our candidates every voter, of whatever political creed, who sincerely desires that our laboring classes may be forever relieved of the curse of coolie competition, and cite to them the fact that relief can only come from a Democratic Congress, and a Democratic President.

Resolved. That in the person of Judge C. H. Belknap we have an eminent jurist, one that is tried and true, and we point with pride to his past record.

Resolved. That the Democratic party has always maintained that none but residents of Nevada should represent her in the National council, and we deprecate the practice inaugurated by Jones and followed by Sharon, of corrupting, by the free use of money, the elective franchise of a free people, and we call upon all Democrats and honest Republicans to come boldly forward and assist in wiping out this stain upon the fair name of our young and growing State.
